

# How fabric's high-touch vendor onboarding works

## 1 Invite vendors

fabric manages the end-to-end process of adding new vendors to your business – all you have to do is send the invite.

## Vendor kick-off

Before any vendor is set live, we test to ensure that all of their connections, products, and processes are ready – so you can be confident before you start transacting.

## 3 Vendor setup

fabric's intuitive UI, on-demand training videos, and easy-to-follow checklist make for a seamless initial setup for vendors and require less work on your end.

## Data upload and validation

Customer experience is everything. We work with your vendors upfront to ensure you receive accurate and robust product data to optimize your sales.

## 5 Testing and review

Our vendor success team does all the work in guiding your vendors through onboarding and training – so you don't have to.

## Launch

Your success is predicated on your vendors – so we take every measure to guarantee it.
